

EMPOWERING MINDS. ELEVATING SKIES.

“AeroKnotz – One Stop for Education, Services & Innovation.”

We are a new-age tech company shaping the future with **Drones, Robotics, and AI**. From empowering young minds through immersive, tech-driven education to delivering high-impact drone services like ****surveying, inspection, and custom solutions**, we bridge the gap between innovation and real-world application. With a strong focus on R&D and smart solutions, we're not just following the future — ****we're building it**

We Inspire ! inspect! & innovate!

INDUSTRIAL VISIT

“Visit Aero Knotz, Gain Industrial Exposure”

We offers engaging industrial visits where students explore real-world drone operations, interact with experts, and witness our R&D in action. Hands-on demos and live field insights spark innovation and career inspiration in UAV and robotics.

4200+
STUDENTS
TRAINED

VALUE ADDED COURSE

“Empower Student Skills with Aero Knotz”

Drone Piloting

Drone Maintenance

FPV Drone Building & Piloting

Aerial Photography & Videography

Drone and GIS

GIS Mapping

Drone Application & Image Data

Drone Data & AI

Application of Drones in Logistics

Building Bot & Application

CERTIFICATION COURSES

"Power Up Your Profile with AeroKnotz."

Custom Drone Building & Piloting
FPV Drone Building & Piloting
Agri Drone Building & Piloting
Data Collection & Processing
Aerial Cinematography

LAB SETUP

"From Campus to Career – Empowering with Industry-Grade Labs."

we empower educational institutions to transform into cutting-edge centers of innovation by establishing fully-equipped Drone and Robotics Labs. Our turnkey lab setup solutions are designed to support:

- *Advanced technical education*
- *Grant-Eligible Lab Infrastructure*
- *Skill-Based Certification Programs*
- *Startup Incubation & Product Development*
- *Industry-Academia Collaboration*
- *National-Level Event Hosting Capability*
- *Faculty & Student Entrepreneurship Support*

INTERNSHIP

"From Student to Professional – Begin Your Journey Here."

We provides hands-on internships that seamlessly connect academic knowledge with real-world innovation. Our internship programs offer practical experience and project-based learning in cutting-edge technologies, preparing students for future-ready careers in:

- *Drone Technology*
- *Robotics*
- *Artificial Intelligence (AI)*
- *Machine Learning*

200+

Drone SERVICES

INSPECTION

Drones assess hard-to-reach areas in infrastructure and machinery, detecting defects and ensuring safety in industries like construction and energy.

- Powerline Inspection
- Solar panel Inspection
- Windmill Inspection

SURVEY/MAPPING

Drones create precise 2D maps and 3D models for urban planning, construction, and environmental monitoring with high accuracy.

MULTIMEDIA

From cinematic aerial shoots to live banner drops and drone-delivered gifts, we create unforgettable visual experiences for events and productions.
